*On qualified models and installation. US Internal Revenue Code Sec. 25(C) effective Jan. 1, 2023, for heating a residence. Consult a tax professional with any questions.

You should consider upgrading your heating system to a Central Boiler outdoor wood furnace if you:

ARE TIRED OF PAYING HIGH HEATING BILLS EVERY MONTH - This is the biggest reason people give for upgrading to a Central Boiler outdoor furnace. As one of the most efficient ways to heat with wood, it provides the maximum value and savings.

ALREADY HEAT WITH WOOD INDOORS - An outdoor wood furnace from Central Boiler safely heats your entire home, shop, garage and domestic hot water. No more mess, smoke or dangerous combustion in your home.

ARE A RURAL HOMEOWNER - An outdoor furnace can make good sense in suburban, small town and rural areas.

ARE INTERESTED IN A \$2000 TAX CREDIT - Classic Edge HDX models currently qualify for this tax credit (see CentralBoiler.com for details).

ARE WORRIED ABOUT WHAT THE FUTURE MEANS FOR FOSSIL FUELS - Heating with wood gives YOU control over the availability and cost of your heat source.

Act now for installation by winter!
